

EXPERIENCE

- **National Health Service** London, UK
Tech Lead (Contract) Jan 2023 – Apr 2026
 - **Manage vaccinations in schools:** A national service that records consent and vaccinations. I was the tech lead from initial commit, to public launch, to millions of patients. Later, I drove a migration to Python for the Reporting functionality.
 - **Gromit:** Single-handedly built a RAG-based Slack agent that reads code, history, documents, and answers team questions.
- **Department for Education** London, UK
Tech Lead (Contract) Jan 2022 – Dec 2022
 - **Find a Lost TRN:** Helps teachers recover their Teacher Reference Number. Built and scaled the project and the team.
 - **Get an Identity:** Helps teachers log in using OIDC SSO. Led the architecture spike and built the first client.
 - **Apply for Qualified Teacher Status:** A service for international teachers to apply for QTS in England. Bootstrapped the service from scratch, set up the deploy pipeline and CI, wrote early ADRs, and coordinated the team through the backlog.
 - **Refer Serious Misconduct:** A service to report serious misconduct by a teacher. Set up the service, wrote ADRs for the Referral model and email-OTP auth, system diagrams, and accessibility audit fixes.
- **Ministry of Justice** London, UK
Senior Developer (Contract) Sep 2021 – Dec 2021
 - **Manage Supervisions (HMPPS):** Carried out an accessibility audit and handled the fixes over 2 weeks, as a sub-contractor for a friend. The team was very satisfied and retained me for 3 months to deliver on their roadmap.
- **Meta** London, UK
Software Engineer Jan 2021 – Jul 2021
 - **Workplace:** Accessibility squad. Fixed accessibility issues toward WCAG 2.2, wrote the team's accessibility statement.
 - **Empathy Lab:** Wrote a design doc and prototypes for an accessibility testing tool, designed as a browser extension that simulates disabilities and common assistive technology interactions.
- **Department for Education** London, UK
Tech Lead / Senior Developer (Contract) Sep 2018 – Nov 2020
 - **Apply for Teacher Training:** The national service for applying to teacher training in England. Led the candidate-facing side to public beta in Nov 2019; iterated through 2020 to 100k+ applications per cycle. Mentored 5 developers.
 - **Find Postgraduate Teacher Training:** The national service for finding postgraduate teacher training courses. Shipped features across both the candidate-facing search and the publisher admin tools; modernised the build pipeline.

PAST EXPERIENCE

Gamesys (2018), Graphit Systems (2017–18), Government Digital Service (2016–17), Timecounts (2015–16), Workangel (2014–15), ReadForward (2013–14)

EDUCATION

- **London South Bank University** London, UK
Bachelor of Engineering, Computer Systems and Networks 2014 – 2016
- **University of Bucharest** Bucharest, Romania
Bachelor of Science, Computer Science 2012 – 2014

PROJECTS

- **keepthingsopen.com:** I wrote an open letter to NHS technical leadership, asking them to keep their code open. It received over 2200 signatures from notable industry leaders: Matt Hancock, Cory Doctorow, Dan Abramov, Rich Harris, and many others.
- **untitled.ink:** An interactive fiction platform, featuring a Claude Code-style agentic editor, the Ink markup language, a hot-reloading preview, and image generation & editing on Replicate.
- **Condolist:** A property listing aggregator, leveraging openai/CLIP on Replicate to find duplicate listings, search by a particular niche feature, and reduce the time it takes to find a nice condo.
- **hasteOS:** A native Swift app that parses the currently focussed window and asks an LLM to suggest the next action, using Ollama and a variety of local models.

SKILLS

- **Languages:** TypeScript, JavaScript, Ruby, Python, Rust, Swift, C#
- **Tools:** Bun, React.js, Next.js, Node.js, Astro.js, Ruby on Rails, Hotwire, Tailwind, PostgreSQL, SQLite
- **Infrastructure:** AWS, Azure, Docker, Terraform, GitHub Actions, Kamal, DigitalOcean, Vultr, macOS, Linux, self-hosting
- **Specialties:** Accessibility (WCAG, ARIA), testing (Playwright, RSpec, Jest, TDD), security, performance, design systems
- **AI / ML:** RAG, ComfyUI, agentic workflows, local LLMs (Ollama), embeddings, Replicate, Claude Agent SDK, Claude Code, Codex, MCP, pgvector, voice conversion (VC)
